### **INTRODUCTION**

Welcome to the 2018 SNETTERTON STAGE RALLY supported by G.& B. Finch Ltd, Hylton Gott and Rix Engineering.

We are delighted to confirm that the event will be the 5th round of the prestigious Motorsport News Circuit Rally Championship as well as regional association championships.

The 2018 event follows the successful 2017 event at the Snetterton Circuit last year run by Anglia Motor Sport Club (AMSC).

The overall format will be similar to last year's event, maximising the opportunities available at the venue by utilising a mixture of on and off circuit roads with a small amount of gravel to extend the stage mileage within the route.

The entry fee has been set to be attractive to all competitors and as the entries have been limited to 90 and competitors are invited to submit their entries as soon as the entries open for what it is anticipated will be a popular event.

The organisers would like to thank G.& B. Finch Ltd, Hylton Gott and Rix Engineering for their sponsorship which is very much appreciated and to recognise the support of MSV, their management and staff at Snetterton. Without these contributions, the event would not be possible.

## Supplementary Regulations

19 Roadbook

Entrants will be supplied with a Roadbook at Documentation, giving details of Special Stages and the location of controls, in the form of Stage Diagrams. This document will provide all the information necessary to enable competitors to comply with R6.1-3 and R26.1-10. Competitors are asked to watch the MSA First on Scene Video that can be found at <https://www.youtube.com/watch?v=Xde9mqk7-Ks>

20 Vehicle Identification

Competitors will be identified by competition numbers to J4 which will be supplied by the organisers. All identification must be carried throughout the event, and must be removed or covered on finishing the event or retiring. Rally Plates must be fixed to the front of the vehicle and be on display for the duration of the event.

21 Controls and Timing

The event will be run using the Target Timing system as defined in MSA GR R31 of the General Regulations, amended:

Maximum Permitted Lateness will be 5 minutes between Main Time Controls (MSA GR 31.2.5). All controls will open at the due time for Car 1 and close 5 minutes after the due time of the last car. Special Stages will be timed by digital clocks operated by Marshals under the control of the Chief Timekeeper. Such timing will be to the last completed second R31.1.3. Should any of the clocks fail, the organisers reserve the right to use any other available means for timing. Crews must present themselves with their cars at all controls and it is their responsibility to ensure that all entries on their time cards are correctly recorded and handed in when and where required. Should any entry not be legible or appear authentic, the organisers reserve the right to use any means at their disposal to establish a valid entry.

Control Procedure

You should book into the Main Time Control (MTC (Out)) at the exit from the Service Area at the time marked on your first Time Card. At the Stop Line your Stage Finish Time in Minutes is the start of the next Road Section to the RC Control where the Official will remove the Time Card and issue a fresh Time Card for the next Stage. The due time at the next MTC (Out) will be recorded on this Time Card. The Final Control of the Rally is a MTC which is deemed an MTC (In).

Main Time Controls (MTC (Out)) - Re-join Point MSA GR R40.1.6 & MSA GR R40.1.7

All Special Stages will be preceded by an MTC designated an MTC (Out). Two cars will be due at the MTC (Out) per minute.

### Special Stages (SS)

Competitors will start all Stages at 30 second intervals. A Bogey Time will be set at 75 M.P.H. (H177) and a Stage Maximum Time set at approximately 30 mph.

All Competitors will receive penalties and accumulate lateness as follows: -

- |    |                                     |                   |

| c) | Over Stage Maximum                  | Stage Maximum     |

### Special Stage Start Control (SSS)

Once a time has been given at the MTC (Out), a crew must proceed to the SSS where a start time will be given in hours, minutes and seconds. The Start Marshal will assume that the crew is ready to start the Stage and will issue a time as soon as the start line is clear, whether the crew is ready to start or not. The stage start will be operated by traffic lights linked direct to Digital Clocks with automatic jump start detection by a beam.

The Traffic Light Start Sequence is as below; no verbal warnings will be given and the competitor should leave the start on the Green light.

- |            |  |
|------------|--|
| 15 Seconds | Red Light  |
| 10 Seconds | Red & 5 Amber Lights   |
| 5 Seconds  | Red Light is extinguished and the 5 Amber Lights - countdown 5-4-3-2-1 |
| 0 Seconds  | Green Light  |

A False Start Detector may be used as per R25.7.3

### Special Stage Finish Control (SSF)

The Flying Finish will have a light beam which is linked to the Digital Clock at the Stop Line. At the SSF a crew will be given their finish time in hours, minutes, and seconds. Any crew who fails to stop at the Special Stage Finish Control must not, under pain of exclusion, reverse to the stop line but must return on foot. The time given at this Control in Hours and Minutes will be the Start Time for the Road Section to the next RC (In) Control.

### Regroup Control (RC)

At the SSF Control at the end of Stages 1 to 7, competitors will return to the service area as stated in the Roadbook for the next Service Halt via a RC control which is designated an MTC (IN) Control. The official will collect the Time Card for the Stage just completed and record on the next Time Card your due time at the MTC (Out) for the next stage.

### Main Time Control (MTC (IN))

After the last stage of the event there will be an MTC (In) Control which will be the finish of the event.

## 22 Servicing and Parc Ferme

### Parc Ferme

Competitors using the self-refuel area must have deposited their BS standard fuel canisters within the self-refuel fuel storage area prior to 08:30 on 18th February 2018. Canisters will be tagged and logged by the Environmental Scrutineer. However, competitors are reminded that it is their responsibility to ensure the self-refuel area contains sufficient fuel for their day's sport or preferably use the Vital Equipment dispensing area.

Please note that in instances of early retirement, you must have the consent of the Environmental Scrutineer to collect your canisters and you must follow his instructions fully in doing so.

Refuelling anywhere other than these designated areas carries a penalty of up to exclusion from the event.

Fuel can be purchased from Vital, who will be present and orders must be placed with them before the event.

### Garages

A restricted number of pit lane garages will be available for competitors to rent. The fee will be £50 for the day. Applications should be made at the time of entry and garages will be allocated on a "first come" basis. The final number available may not be determined until after entries open.
